

What When Where

The 3rd Degree Burn 2024

THE YARTS

Doodle Box – Sarah Box | 1

The Doodle Box is a place and space for creating or escaping. You're invited to find a section to 'doodle' on and co-create an epic combined artwork with me! Paints and pens provided. Or enjoy chilling inside the Doodle Box at night and exploring the doodles under the UV lights.

Pixie Ring – Tyne Arnold | 2

Step into the pixie ring if you dare!

Sacred Bloom – Lumiel Ricardi | 3

A sacred nature temple space using fabric art to reflect aspects of knowing within universe and oneself. We welcome collaboration and use of the space for peacemaking practices.

YawkYawk – Tereasa Trevor | 4

Let the glistening glow of the Yawk Yawk drench your path with flowing water wisdom. Hear the liquid whispers of eternal connection invite you to deep self-reflection. For every shadow, there's a cascade of spiralling watery light to dance in. Every drop we see was here before and shall be again, echoing through time.

Iridescent Void – Caer | 5

Cast off your existential dread and stare into the void, but not just any void, the Iridescent Void. Get cosy and experience hyperdimensional* reality in 3D, probably.

The Void will manifest behind an illuminated portal at night. To contemplate the Void: cast off your shoes and lie down to behold an intricate, glittering and shimmering experience in a cosy velvet blackness. Contemplation of the Void is for all ages and is a safe space.

Existential dread optional.

*not a guarantee.

Gwubblings Theatre – Sally & Alex Williams | 6

Have you met the Gwubblings? Keep an eye out for these little creatures, they're looking for new friends to bring them to life. Your imagination is the invitation. Bring your curiosity, make new friends, share the fun and play in the world of the Gwubblings.

The Sybilla – Valeria Boselli | 7

Step into the ancient wisdom of the Sybilla: the prophetess, the sun and earth priestess. What will her guidance reveal? Where does her wisdom shine on you? Come, explore the universe through the eyes of Sybilla and perhaps find a little piece of your path to self discovery .

Human Boombox – Yådōté | 8

Don a suit made of speakers and become the Human Boombox! Interact with the integrated computer and sequencer to create your own mobile, live and original music.

The Curious Clerestory – Neil Dawson | 9

The Curious Clerestory cordially invites you to a place of inspiring intrigue, clement cool & symbiotic solidarity. If you're feeling lost or lonely, disappointed, frustrated, scared, shy, or simply uncertain, let us offer you a reprieve from self doubt through projected panoramic views of liberating landscapes and thought provoking precepts & proverbs, accompanied by an anonymous future friend on our buddy bench.

Antarean Pyramid – Nathan Starchild | 10

The Antarean Pyramid is a safe space for people in all phases of consciousness. A cosy and inviting space that can act as a container for whatever is needed in that moment.

Dreamboat – Oliver Coleman | 11

The surrealest way to be transported from A to your dreams.

Tipi & Where The Seeds Are Born – Kite Richards & Kasia | 12

Chill Space

The Dispensary – Sarah Barberland | 13

Beautiful Noise Listening Circle – Chris Mountford & Silvia Oolala | 14

Open your ears to an exploration of sound composition from beautifully sonorous audioscapes to exquisite noise. Come and experience an artfully curated programme of avant garde, experimental and unusual music. Regular DJs, Chris and Silvie love to play a dance set but want to share their musical passions beyond the constraints of genre and make space for an expanded spectrum of sound.

Reflections of Infinity – Hamish Guinn | The Effigy

Reflections of Infinity explores the intersection of dimension and perception through a tesseract—a four-dimensional hypercube brought into our three-dimensional realm. This effigy invites us to examine our perceptions of space and reality. Within the effigy we see the surrounding environment and ourselves reflected, symbolizing the infinite nature of self and existence.
